

## Busoasis Project

**For Sale £8,000 ono.**

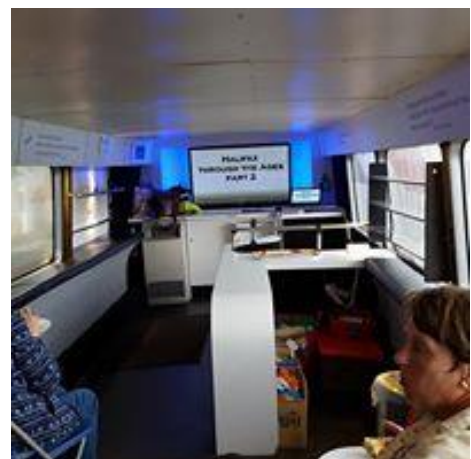

1984 (B reg) Leyland Olympian Double Decker 11 m long, 14.5 ft high, 13.5 T

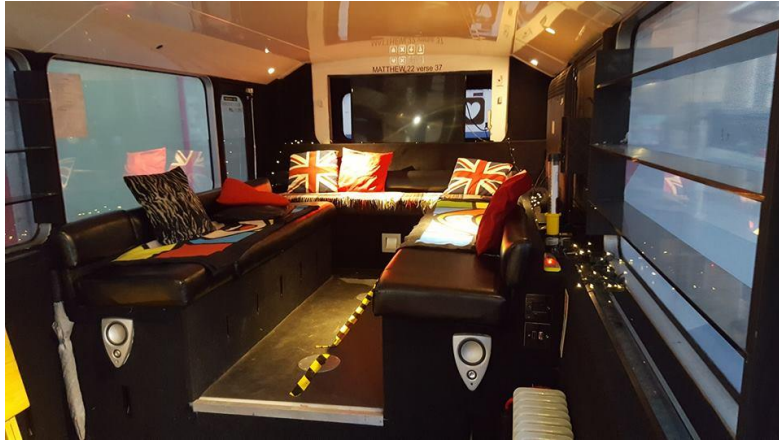

Fully equipped mobile project vehicle ideally for use as a static facility.

Busoasis has served Calderdale Methodist Circuit well for the last 3 years. We now feel it is time for a different vehicle and are offering this one for sale. Due to its age, parts are becoming more difficult to source, hence, we believe that it will make a fantastic static base suitable for a variety of uses.

Internally there are 2 TV screens (one facing outwards), surround sound system (Bluetooth enabled), air conditioning unit, seating upstairs and downstairs, storage.

Power is supplied via onboard generator/mains hook up and there is lighting (coloured in some areas), spaces for games consoles, sockets and USB points.

2 No. fixed sun awning on near-side, the bus is fully accessible via ramp, emergency exit.
